Numbers Do Not Lie

Annabelle is an expert in number analysis. After many years of study and research her skills in Numerology remain unparalleled. She is dedicated to helping people realise their potential for living with love, peace and success in their lives.

The human mind is constantly searching for answers to life's complexities. If only we could go back to our youth and know what we know today. But life doesn't work like that - or does it? The Science of Numerology cannot give us back our youth, but it *can* guide us into the future. Every number tells a story - your story, the story of humanity, the story of the world.

- You will be astounded by what your Personal Year number reveals about your life
- Understanding your child's behaviour through his/her Personal Year number
- Will the new millennium bring annihilation or peace? The choices that *you* make will determine the outcome
- Men and women coming together in harmony and unity - *myth or reality?*

*Never before has a book on Numerology been written in such a candid way that enables you to take charge of your life and live it with the passion and success for which you were destined! Its honesty, wisdom and spirituality will undoubtedly convince you that **Numbers Do Nott Lie!***
